LIBRARIAN'S REPORT

Chesterfield, N. H.

To the Trustees of the Chesterfield Library:

Herewith is presented the annual library report:

153 books have been purchased for the library during 1946. Of these 33 were gifts of the Etta Hubbard fund and 28 were gifts of the Frank Hamilton fund and David Beckley fund.

For the year 1946 the total circulation for the central library was 4,167 volumes.

Adult fiction	1,672	Non-fiction	556
Juvenile fiction	1,459	Non-fiction	480

West Chesterfield branch, Mrs. Lina Amidon, librarian, reports 742 books loaned.

Spofford branch, Mrs. Pauline Record, librarian, reports 582 books loaned.

There have been 10 book exchanges with Spofford in 1946 and one with Chesterfield as Mrs. Amidon hasn't been able to get to the library.

During this year the library started loaning books for use in the Spofford and West Chesterfield schools. The teachers take charge of loaning them to the children. We try to exchange them once in six weeks. We feel that the library is increasing its service and the teachers are grateful.

Mr. John Faulkner has presented the library with a framed map of Lake Spofford. It is a very suitable addition to our collection.

Last year due to a regrettable oversight on my part I forgot to mention the gifts of Mrs. George Goodridge of Spofford, in my report. There were two sets of books, one about famous people and the other on animate creation.

'Also there was a friendship handkerchief (hand-embroidered containing names of many of the older residents) which has drawn the interest and admiration of almost every patron.

Our records here at the center show we have 92 regular borrowers and we had 30 summer borrowers.

Respectfully submitted,
ARDELLE HASKELL,
Librarian.

REPORT OF THE BOARD OF HEALTH

The Town has been quite free of contagious diseases, we had one case of scarlet fever and we were fortunate that it did not spread. There seems to be some misunderstanding about reporting cases of contagious diseases, especially the more mild ones. Your health officer has to report weekly to the State Board of Health whether there are any cases or not, so it is very necessary that all cases are reported to him. Cases not severe enough to be quarantined should be isolated so as to stop the spread of any disease if possible.

Mrs. Clara B. Wellington had charge of the Town Beach, so-called, and it was kept in a sanitary and orderly condition.

There being so many tourists' homes and cabins near and around the lake several places on the shore not intended for public beaches are used for bathing and recreation places and have to be kept clean and in a sanitary condition and will run into more expense as time goes on. Frank Whorfe has charge of the shores, garbage and public dump.

The entrance to the public dump needs grading and sanding so that people with automobiles can dispose of their rubbish instead of leaving it beside the road.

Several samples of water were taken and sent to Concord for analysis, due to a shortage of containers it was necessary to wait our turn which caused some delay in the reports.

Sixteen milk licenses were issued for the sale of milk and cream. Seven of which were issued to buy and sell milk and cream at two dollars each as follows: Paul Pen-

ning, Henry Chickering, Francis Cheever, Harry Nosek,
Clara B. Wellington, Clifford Tuttle and John Redding.

Respectfully submitted,
HAROLD E. RANDALL,
Health Officer.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Chesterfield:

I herein submit my fourth annual report as superintendent of schools.

One full year has passed since the end of actual combat in World War II. The end of the war has brought no relief to the deficiencies in the American public school system. The situation has become steadily more critical. The impending crisis demands action now.

An appraisal of American schools reveals many inadequacies in personnel, facilities and services that are necessary to meet the needs of children and the welfare of the nation.

Teachers leaving the profession since 1939 have formed the greatest vocational exodus in history. In relation to their numbers the loss to the profession has been much more acute in the elementary schools and the rural areas have suffered most. A new policy of teachers salaries must be established with consideration for relative pay in other occupations. In 1944 the average annual pay for teachers was \$464 less than the average worker in private employment. If the fully qualified teachers received more pay than laborers our schools would be staffed more adequately.

Adequate health facilities and programs are non-existent in a very large proportion of rural schools. Sound health is the most valuable individual and national asset. Every child should be given complete physical examinations periodically followed by corrective measures. The health program should include organized outdoor sports and recreation for all children extended throughout the summer months.

Opportunities should be afforded in the schools to practice various duties of citizenship. The financial tribute

exacted by crime in general is great. Less than two percent of the population may be classed as criminal. The financial losses caused by this small percent of the population amounts to more than five times the sum spent annually for public education in the interest of all children. The support of social agencies and an increase in school budgets for individual guidance and instruction are good business investments as well as sound social protection.

Every child should have an opportunity to acquire in his school career some of the fundamental skills of a vocation. To more than half of American youth this opportunity is lacking or wholly inadequate. Preparations for home membership should include the arts of the kitchen, the sewing room, the shop and individual hygiene.

It has been recommended that school districts maintaining several elementary schools should examine in detail the advantages of consolidation as a means of providing the necessary facilities of an enriched program.

ACKNOWLEDGMENTS

The plan to maintain a music teacher in the schools ended in September 1946 when the Union Music Supervisor, Mr. Rodney Wiggin, resigned to accept a position at Hyannis, Mass. No other suitable candidate has become available.

The vacancy at the Spofford School, caused by the resignation of Gertrude Morrison, was filled in September 1946 by Annie Boynton of Coventry, Vt. The resignation of Laura Atema at the Center School, at the close of the school year in June 1946, was received with disappointment following several years of excellent work. Hazel Rubeor of Hinsdale has been employed to fill the vacancy. It is indeed fortunate that these two teachers with successful experience were available. Mary Chickering and Alice Spaulding have served the district efficiently as substitutes.

The income from the Mulligan Fund has been used to provide a new Sound Moving Picture Projector for the three schools. Film rental service from the University of New Hampshire, in conjunction with other school districts, provides a definite schedule of educational pictures at low cost.

The activities of the Parent Teacher Association have been a constructive factor in school work.

A new furnace has been installed at the West Chesterfield School. The present toilet facilities and the lack of drinking water in the schools merits consideration by the school district.

CONCLUSION

I wish to thank the teachers, the members of the school board, the nurse and all other employees for their

faithful service to the district. The cooperation of the parents and citizens is also greatly appreciated.

Respectfully submitted,

JOHN H. FRYE,

Superintendent of Schools.

HELP YOUR FOREST FIRE WARDEN PREVENT FIRES—IT PAYS!

The prevention of forest fires is the most important and difficult part of the work of your forest fire warden who heads a local organization set up primarily for the security of your community's forest property. The importance and value of the work of the forest fire warden and his deputies is, perhaps, best appreciated during hazardous periods when fire danger is greatest. The public, however, looks to him at all times for speedy and economical suppression of going fires

To properly fulfill his mission, the warden needs the generous and understanding cooperation of the public at large. He attempts to secure this cooperation by the posting of caution notices, news items and by word of mouth, always carefully explaining the necessity of restrictions imposed. In the matter of giving cooperation, however, the public often fails. The record shows that an average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year. Analysis of fire causes reveal the fact that more than 98 percent of all forest fires are, consistently, the result of human carelessness and are preventable.

The careless smoker fails to properly extinguish his cigar, cigarette or pipe ashes or thoughtlessly throws them from the car window; the debris burner fails or refuses to consult the warden, as the law requires when the ground is not covered with snow, before attempting to burn; campers fail to properly extinguish their fires or frequently build fires when conditions are unfavorable.

Remember these rules:

1. Use ordinary common sense with fire in and near woodland.
2. Comply with requirements on the use of fire in and near woodland and when the ground is not covered with snow, secure written permission to burn from the forest fire warden.
3. Be careful when smoking in or near woodlands. Don't throw lighted material from moving vehicles.
4. Cooperate with and assist the warden and urge others to do so.
5. **HELP YOUR FOREST FIRE WARDEN PREVENT FIRES—**his efforts are only as effective as is the cooperation you give him!

F. J. BAKER,
District Fire Chief.
